DALTON ADDING MACHINE
SO SIMPLE A CHILD CAN OPERATE IT

Ten Keys to finger is the simple concern of the DALTON Operator. The ten key key-board makes touch operation easy.

Makes the DALTON 25 to 40 per cent speedier than any other adding machine. Fastest for the expert and fastest for the novice.

The DALTON is not a plain adder or simple calculator, but an all-around adding, listing and calculating machine.

THE DALTON DOES ALL YOUR WORK.

Figures payrolls, verifies invoices, extends totals, pro-rates, foots trial balances, checks postings and computes interest.

THE DALTON, THE MACHINE THAT DOES THINGS.

Let us show you the DALTON for your work in your own office.

TROY STREET DIRECTORY.

Giving the name of each street and showing what other streets and places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained; as for instance, wishing to know at what part of Second street No. 168 comes, look at Second street and it is found that Liberty street crosses at 156, Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

Ciphers are substituted for numbers on streets not fully numbered.
